

ATS-Optimized Resume for Mohammad Sajid Shaik

MOHAMMAD SAJID SHAIK

(660)-528-5231 | shaikmohammadsajidms@gmail.com | [LinkedIn] | [GitHub] | [Portfolio] | [Medium]

PROFESSIONAL SUMMARY

Frontend Developer with 1.6 years of experience in building dynamic and responsive UI components using Angular, JavaScript, CSS, Node.js, and ASP.NET MVC. Skilled in optimizing performance for seamless user experiences across web applications.

Proficient in mobile development using Xamarin (iOS, Android, Forms) and backend technologies including Java (Spring Boot), C# (.NET MVC & .NET Core), and Go. Strong expertise in API development, microservices architecture, DevOps automation (Azure DevOps, Terraform, Jenkins), and cloud-based solutions (Azure, AWS). Experienced in containerization (Docker, Kubernetes), security implementation (OAuth2, JWT, API Gateway), and database management (Oracle, SQL Server, CosmosDB). Passionate about Agile development and continuous improvement in software engineering practices.

SKILLS

- Programming Languages: Java (Spring Boot), C# (.NET Core, .NET MVC), Go, JavaScript, TypeScript, Python
- Frontend Technologies: Angular, JavaScript, Node.js, HTML5, CSS3, ASP.NET MVC
- Mobile Development: Xamarin.iOS, Xamarin.Android, Xamarin.Forms
- Backend Technologies: Spring Boot, .NET Core, Node.js, Express.js, RESTful APIs, GraphQL, Tibco BusinessWorks (ESB)
- Databases: Oracle, Microsoft SQL Server, NoSQL (CosmosDB), PostgreSQL, MongoDB
- Cloud Platforms: Azure (Functions, Blob Storage, Kubernetes Service, DevOps, ARM Templates), AWS (EC2, S3, Lambda)
- DevOps & CI/CD: Azure DevOps (YAML, ARM), Terraform, Jenkins, Chef, Octopus Deploy, Git
- Security: OAuth2, JWT, API Gateway, SonarQube, Checkmarx, Role-Based Access Control (RBAC)
- Testing & Automation: Selenium, SpecFlow, Postman, JMeter, Maven, TestNG, XamarinUITest
- Containerization & Orchestration: Docker, Kubernetes (AKS, Open Source)

- Scripting & Automation: PowerShell, Bash
- Agile & Collaboration: Agile Scrum methodologies, peer code reviews, CI/CD pipeline optimizations

PROFESSIONAL EXPERIENCE

Assistant System Engineer

Tata Consultancy Services - Pune, Maharashtra

Feb 2022 – July 2023

Project: SmartBusiness App Suite

- Designed and implemented reusable UI components in Angular and JavaScript, improving modularity and maintainability.
- Optimized frontend performance with lazy loading, code splitting, and caching, enhancing user experience.
- Developed and customized UI components in Xamarin.Forms, ensuring consistency across iOS and Android.
- Built scalable backend services using Java (Spring Boot), C# (.NET Core), and Go with microservices architecture.
- Integrated RESTful APIs with frontend applications using RxJS and Angular services, improving real-time data handling.
- Enhanced database performance using optimized queries, stored procedures, and indexing strategies in Oracle and SQL Server.
- Automated CI/CD pipelines with Azure DevOps, Terraform, and Jenkins, reducing deployment time.
- Implemented security best practices including OAuth2, JWT authentication, and API Gateway security controls.
- Developed automated test cases using Selenium, SpecFlow, Postman, JMeter, and TestNG, increasing test reliability.
- Collaborated in Agile Scrum teams, participating in sprint planning, backlog refinement, and peer code reviews.

EDUCATION

Northwest Missouri State University – Maryville, MO

Master's in Computer Science (Aug 2023 – Dec 2024)

ADDITIONAL INFORMATION

- Published technical blogs on Medium covering Angular development, DevOps practices, and cloud solutions.
- Actively contributing to open-source projects on GitHub, showcasing problem-solving skills and best coding practices.
